WHOSE HEALTH IS IT ANYWAY?

Community Services Information Forum

*Join us for a conversation about health and its
importance to social justice*

- People's right to know about their health and understand the importance of person-centered, linking ideas across the health, disability and community sectors.
- Discussion around the principles of health care rights, such as respect and justice.
- The underlying principles of consumer-driven care such as health as a human right.
- Ask questions about how health issues link with social justice: how does health fit with the community services story? What does this mean for you as a consumer or carer? What does it mean to you as a person involved with a community service organisation? What are the barriers to people being able to take control of their own health?

Guest Speakers

Leena Sudano SA Health Complaints Commissioner
Dr David Panter Executive Director, Statewide Service Strategy, SA Department of Health
Dr Lorna Hallahan Senior Lecturer & Program Coordinator MSW, Department of Social Work and Social Planning, Flinders University
Kylie Harrison, Carolyn Donaghey Consumer Advocates.

SACOSS and HCA hope that this will be the beginning of an ongoing discussion, driven by the SACOSS membership and other interested parties, on aspects of health of importance to them.

4.30pm – 6.00pm Monday 20 September 2010

Entry by gold coin donation

Coffee, tea, wine and nibbles supplied
