

Colin Ball – 5 things that would strengthen our sector

1. Learn to say No and remember that third sector is not third best
2. Reform - poor pay in the sector is but part of the wider problem of poor regard for it
3. Smarten up the language we use - we are the "people's sector"
4. Stop self-harm, such as big voluntary organisations causing small community organisations to wither and die.
5. Buy "It's the Community, Stupid!"
